

**STRIVE FOR  
LESS THAN FIVE  
DAYS ABSENT!**

## MARIPOSA COMPUTER SCIENCE MAGNET SCHOOL

It's really important to respect our crossing guards and their signs during pick up and drop off times. Wait until the kids are completely out of the crosswalk before you proceed. Parents, please have your child exit to the sidewalk if you are driving eastbound on H-6, and guide them across the street when it is clear.

Did you know that every month each of our students has a chance to win Monarch of the Month? These were the Character Focuses so far this year:  
August: Respect  
September: Cooperation  
October: Positive Attitude  
November: Kindness and Empathy

**Attention Spanish Speakers!** We will be launching our first *all-Spanish Parenting Partners* workshop series right after the winter break. It will start on January 30 at 8:30am and will be on each Thursday for six weeks. We start each workshop with snacks and hot drinks, then we learn some very practical tools to support your leadership role in the home. When our first graduating class had their last workshop, they commented, "We don't want it to end!" This is a great place to become more involved in your students' learning and a place to meet other parents and learn from each other as well. Mark your calendars!

## WE LOVE OUR PARENTS!

**Want to Participate?** We are going to have a disaster drill on Dec 13 from 2:15-3:13. We practice what it would be like to do student pickups during an emergency situation. If you would like to participate in this pretend scenario, *you must bring your ID* and meet out front at 2:15pm that day. Parents who opt out of the exercise may pick up their students at the regular time in their regular areas. More info: <https://app.peachjar.com/flyers/878344/schools/149924>

**Standing Room Only!** This year's first Coffee with the Principal was packed out with caring parents who want to increase their involvement in their students' learning!

Mr. Choate gave us the back story on how we became a Computer Science Magnet School. His vision received unanimous support from all the teachers and staff. Mrs. Krumrei taught us the Social-Emotional Learning skills that guide our students during the day. Our Ambassador showed us a skit that explained the practical tools learned by our first Parenting Partners graduating class. We also made new friends and picked up backpacks for any student who needed one. Make sure you don't miss our next Coffee on April 15!
