For more information on which school your child will attend please contact Pupil Safety and Attendance at 661-940-4355</p>

The goal of the Lancaster School District is to provide a rich learning environment to all of our students. We invite you to get on the right track with your students.

Track 1 is designed for our “Littlest Learners”. This track provides them the opportunity to access a developmentally appropriate play based environment rich with language. This environment provides foundational skills in a 1/2 day California State Preschool Program.

Track 2 is designed for children in the Transitional Kindergarten age range (Sept 2-Dec 2). This track also begins with foundational skills through a developmentally appropriate environment in year one. In year two the focus is on academic skills through the use of the California Common Core Standards for Kindergarten.
