Fiscal Solvency/Recovery Stabilization Plan

* Effective budget management is our District's utmost priority. The District allocates resources to support the programs and services that most benefit students' growth, instruction, and safety. At the same time, we are observing fiscal solvency and building budgetary sustainability. The Superintendent and Assistant Superintendent will provide leadership and regular communication regarding the state of the current district budget to the Board of Education and community educational partners as we work on budget projections for the next three years.

* The District is committed to implementing expenditure reductions and revenue enhancement to eliminate the Lancaster School District's instructional budget deficit and maintain financial solvency in FY 2023-24 and two subsequent years.

* Optional Program Expenditure Reductions - During the 2023-24 school year, the Lancaster School District fiscal staff will analyze and gather student achievement data on all existing programs. In addition, a review of all programs, contract obligations, and cost comparison of other available programs will also occur before filing the First Interim Budget Report in October to LACOE.

* Staffing analysis - Review management's position control and staffing levels for classified and certificated staffing, including teacher ratios, to implement cost reductions and better efficiencies districtwide.

* Administration is constantly evaluating which programs support and services, previously added as a response to the pandemic, most benefit the students, and thus determine which ones should be part of the District's ongoing plan; This will be solidified in the fall of 2023-2024.

**The District Revenues reflect a decrease In ADA that directly impacts our LCFF State Revenues for the two consequents fiscal years. As a response and to be fiscally solvent, Administration has been evaluating all programs and positions.

**At the same time, Executive Cabinet has identified the root cause of this District's Deficit Spending and is currently implementing a detail plan to increase ADA. This plan was implemented on previous fiscal year and will remain in place for current and two consecutive years. Still, Executive Cabinet is meeting every week with all Administrators to constantly evaluate progress which could result in implementing changes or to continue with said plan. This will take place with the sole purpose of meeting fiscal solvency. **As part of this Fiscal Stabilization Plan, Executive Cabinet is also identifying opportunities of repurposing that will take place if necessary due to ADA loss, the savings for Fiscal Year 23-24 is \$6.7 million, said staffing changes are as follows:

the need for LEAs to file amended federal reports when their actual indirect costs vary from the estimated indirect costs on which the	
approved rate was based.	
Where the ratio of indirect costs incurred in the current year is less than the estimated ratio of indirect costs on which the approved rate for	
use in the current year was based, the carry-forward adjustment is limited by using either the approved rate times current year base costs,	
or the highest rate actually used to recover costs from any program times current year base costs, if the highest rate used was less than	
the approved rate. Rates used to recover costs from programs are displayed in Exhibit A.	
A. Indirect costs incurred in the current year (Part III, Line A8)	13,718,425.19
B. Carry-forward adjustment from prior year(s)	
1. Carry-forward adjustment from the second prior year	(664,088.40)
2. Carry-forward adjustment amount deferred from prior year(s), if any	0.00
C. Carry-forward adjustment for under- or over-recovery in the current year	
1. Under-recovery: Part III, Line A8, plus carry-forward adjustment from prior years, minus (approved indirect	
cost rate (5.56%) times Part III, Line B19); zero if negative	0.00
2. Over-recovery: Part III, Line A8, plus carry-forward adjustment from prior years, minus the lesser of	
(approved indirect cost rate (5.56%) times Part III, Line B19) or (the highest rate used to	
recover costs from any program (2.65%) times Part III, Line B19); zero if positive	0.00
D. Preliminary carry-forward adjustment (Line C1 or C2)	0.00
E. Optional allocation of negative carry-forward adjustment over more than one year	
Where a negative carry-forward adjustment causes the proposed approved rate to fall below zero or would reduce the rate at which	
the LEA could recover indirect costs to such an extent that it would cause the LEA significant fiscal harm, the LEA may request that	
the carry-forward adjustment be allocated over more than one year. Where allocation of a negative carry-forward adjustment over more	
than one year does not resolve a negative rate, the CDE will work with the LEA on a case-by-case basis to establish an approved rate.	
Option 1. Preliminary proposed approved rate (Part III, Line D) if entire negative carry-forward	
adjustment is applied to the current year calculation:	not applicable
Option 2. Preliminary proposed approved rate (Part III, Line D) if one-half of negative carry-forward	
adjustment is applied to the current year calculation and the remainder	
is deferred to one or more future years:	not applicable
Option 3. Preliminary proposed approved rate (Part III, Line D) if one-third of negative carry-forward	
adjustment is applied to the current year calculation and the remainder	
is deferred to one or more future years:	not applicable
