

Dear Clients,

I hope you had a great summer and start of the school year. OMNI/TSA is pleased to provide your organization with its Report Card detailing your 2022 2nd quarter plan administration activity. This report card details, among other things, the participation in your plan to determine your participation rate. One way to increase participation is through matching or non-elective contributions. In fact, OMNI/TSA is seeing a large increase in non-elective contributions from our clients. Please know that OMNI/TSA is able to assist with determining the best way to tailor the non-elective contributions to your organization's needs and provide sample non-elective contribution language to be used in your agreements to ensure IRS compliance. If you have questions about non-elective contributions, your report card, or anything related to your 403(b) and/or 457(b) plan, please reach out to your Client Relations Manager.

Sincerely,

Sarah Breiner

Sarah Breiner, Managing Director & General Counsel
